---

It's here! We are excited to introduce our newest skin care take-home treatment. This is a hydrating and brightening facial sheet mask with anti-aging ingredients, including: red-reducing niacinamide, anti-inflammatory chamomile and gardenia, antioxidant cocoa extract, plumping hyaluronic acid, brightening vitamin C, and anti-aging caviar extract. This unique infused serum protects and adds moisture to your skin, reduces the look of fine lines and wrinkles, and reverses oxidative aging. This amazing mask gets your skin one step closer to it's natural beauty and perfection. An at-home mask treatment is perfect for pre-event face-prep (weddings, holidays, etc.) and for weekly (or daily) maintenance. It is now available at our office and for online orders. It's already getting rave reviews from our staff, friends, and patients.

**"I've tried many do-at-home facial sheet masks, and this one truly delivers. ☺ I feel and look refreshed and radiant every time!" --Jane, age 67**
